EXPERIENCE

Siemens – SMO NAM Functional Excellence Working Intern

2023-current
- IT Project Management. Managing IT systems for the business.
- Monitor digital processes. Identify gaps and work cross functionally to correct databases.
- Validate & implement digital prototypes. Roll out digital solutions across the organization. Monitor and support adoption.
- Develop reports leveraging various applications. Provide progress reports to leadership.
- Create a well drafted excel database for a variety of cross functional team members to effortlessly work within unilaterally. Continuous supervision and updates.

Encore Technologies – Chromebook Repair Tech

2021-2022
- Worked to fix any software/hardware issue with Chromebooks from neighboring school districts.
- Worked in a small team and tackled mass issues together.

Links – Assistant

2019-2021
- Performed any given task within a warehouse. Was a trusted employee that could get any job done.
- Forklift certified

A&D Construction – General Contractor Assistant

2017-2019
- Worked to build dentists offices typically from the ground up.
- Worked closely with the CEO and was involved in numerous meetings and project management decisions.
- I learned more about how a business should run by this experience than any book could ever teach me.
